5,179 pages
14,093 registered readers

Constructivist Foundations is a leading **Q1 journal** in three areas: Philosophy, History and Philosophy of Science, and Multidisciplinary Research, and is listed in the the **AHCI** of Web of Science. It is dedicated to the interdisciplinary study of the philosophical and scientific foundations and applications of constructivist approaches.

It is the **only** journal that covers 4E cognition, biology of cognition, constructionism, first-person approaches, neurophenomenology, non-dualizing philosophy, radical constructivism, second-order cybernetics, and the theory of autopoietic systems.

The journal appeals to **philosophers, psychologists**, scholars of **educational research, cultural studies** and **communication sciences**, and researchers working in **artificial intelligence** and **cognitive science**.

Subscription Details

A library subscription costs **295 Euro** per year.

It offers **three advantages** over the free open-access subscription:

- 1 | **No download restrictions** (without subscription readers can download only up to three articles per day)
- 2 | **Direct access** to the texts without the need to log in (via an IP range white list)
- 3 | A complimentary **print copy** of each issue.

How to order

Please contact the editor-in-chief
